

Institutional Profile: Parisutham Institute of Technology and Science (PITS), Thanjavur

1. Institutional Identity and Administrative Framework

In the competitive landscape of the 2026 admission cycle, institutional identity serves as the primary mechanism for accountability. For an admissions strategist, TNEA College Code **3833** is the critical identifier that distinguishes this institution within the single-window system, ensuring students are not misled by entities with similar nomenclature. Furthermore, the college's status as a Christian Minority institution is strategically significant; as per Section 8 of the source context, this allows for a 50% seat allocation under the management/minority quota, providing a distinct entry pathway for eligible candidates outside the general TNEA pool.

Field	Details
Full Name	Parisutham Institute of Technology and Science
Short Name	PITS
TNEA College Code	3833
Institution Type	Self-Financing, Private
Minority Status	Christian Minority (50% Management/Minority Quota)
Autonomous Status	UGC Autonomous (Conferred 2023-24; Valid for 10 years)

Affiliated University	Anna University, Chennai
Year of Establishment	2008
Location	NH-67 Ring Road, Nanjikottai, Thanjavur

This administrative identity is the byproduct of a developmental trajectory that transitioned from a regional initiative to a self-governing academic body.

2. Founding Legacy and Heritage

The long-term culture of a technical institution is dictated by its founding vision. Mr. S. P. Anthonisamy, an entrepreneur from the Parisutham Nadar family, established PITS under the Parisutham Philominal Educational & Charitable Trust with the philosophy that technical education must integrate discipline, English communication, and life skills to move beyond traditional classroom boundaries.

Institutional Milestones:

- **2008:** Established with an initial affiliation to Anna University of Technology, Tiruchirappalli.
- **2011:** Officially merged into Anna University, Chennai (September 15, 2011).
- **2021:** Achieved NAAC 'A' Grade (CGPA 3.02) on December 21. This was secured during the **first cycle of assessment**, a rare and notable outcome for a first-time applicant.

This historical foundation provided the necessary quality benchmarks for the institution's current regulatory standing.

3. Regulatory Approvals and Quality Accreditations

Active regulatory status is the primary safeguard for students against unapproved programs. For the 2026 cycle, prospective students must prioritize institutions that maintain continuous accreditation to ensure the validity of their degrees.

The institution holds AICTE approval for the Academic Year 2025-26 (Reference: F.No. Southern/1-44642287509/2025/EOA). Its NAAC 'A' Grade (CGPA 3.02) remains valid until **December 20, 2026**.

Strategist's Note: Students entering in the 2026 cycle must be aware that the college's NAAC accreditation expires in December of their first semester. Consequently, these students will be present during the institution's high-stakes Second Cycle assessment. Parents should verify the re-assessment status in the 2026–27 window to ensure continued quality assurance. The conferment of UGC Autonomous status in 2023 (valid for 10 years) further empowers the institution with academic flexibility to modernize its curriculum ahead of affiliated peers.

4. Institutional Rankings and External Evaluations

Third-party evaluations offer an evidence-based view of institutional performance. While magazines provide general rankings, specialized athletic metrics offer insight into the discipline and resource allocation of the campus.

- **The Week Magazine:** Ranked #283 among B.E./B.Tech programs in 2025.
- **CSR Engineering Colleges Survey:** Recognized as an "Outstanding Engineering College of Excellence" (2025).
- **Athletic Dominance:** In the Anna University Zone XV (covering ~22 colleges), PITS demonstrated overwhelming dominance by scoring 490 points—nearly 1.5 times the score of the second-placed institution (330 points).

While these accolades reflect general institutional health, the academic core is defined by its specific engineering departments.

5. Undergraduate Engineering Programs (TNEA 2026)

Analyzing seat volume and program age is essential for determining the "flagship" status and market relevance of specific branches in 2026.

Branch Code	Program Name	Approved Intake (2025–26)
CS	B.E. Computer Science & Engineering	120
EC	B.E. Electronics & Communication Engineering	60

IT	B.E. Information Technology	60
AE	B.E. Aeronautical Engineering	30
CE	B.E. Civil Engineering	30
EE	B.E. Electrical & Electronics Engineering	30
ME	B.E. Mechanical Engineering	30

Departmental Analysis:

- **Computer Science & Engineering** remains the flagship program by seat volume and cutoff competitiveness.
- **Information Technology** (started in 2023) is the newest addition; students should confirm the B.Tech IT vs. B.E. nomenclature in the TNEA portal during counseling.
- **Aeronautical Engineering (AE)** serves as a niche offering, strategically positioned to leverage Thanjavur's proximity to key Air Force and civil aviation assets in the delta region.

6. Faculty Composition and Academic Resources

Faculty stability is a lead indicator of the student learning experience. Auditor data reveals a high academic touch-point environment with 72 permanent faculty and 32 support staff serving approximately 606 students, resulting in a **faculty-to-student ratio of approximately 1:8.4**.

A critical indicator of institutional financial health—and by extension, faculty retention—is the fact that salary payments were maintained without cuts throughout the COVID-19 pandemic. This stability supports a "young and dynamic" faculty body recognized by NAAC for active research publications in Springer and Elsevier journals.

7. Campus Infrastructure, Residential Life, and Transport

The physical environment directly influences student productivity. PITS operates a 50-acre eco-friendly campus with over 5,000 trees and a massive 40,000 sq. ft. Students Centre.

Residential Financials and Amenities: The "Rainbow" (Boys) and "Breeze" (Girls) hostels utilize a "privacy-first" design with individual cubicles.

- **Annual Rent:** ~₹1,000
- **Caution Deposit:** ₹4,000
- **Establishment Charges:** ₹5,950
- **Value-Add:** English newspapers are supplied to *every* room, supporting the founder's "Life Skills" vision.

Student Center & Logistics: The indoor facility includes a gymnasium, billiards, snooker, and a cafeteria, open until 7:30 PM daily. Transport is accessible via the Thanjavur Junction railway station (6km away), with college bus fees ranging from ₹14,000 to ₹22,000 per year.

8. Scholarships and Financial Support Framework

Equitable access is facilitated through a robust framework of government and management-funded supports.

- **Standard Schemes:** Post-Matric (SC/ST), BC/MBC/DNC, Minority, and First Graduate scholarships.
- **AICTE Initiatives:** Pragati (Girls), Saksham (Specially-abled), Swanath, and 10% EWS reservation.
- **Management Merit Scholarships:** Approximately ₹20 lakhs is awarded annually to meritorious and underprivileged students.

Strategist's Advice: Given the documented potential for delays in government disbursement, students are advised to track all receipts meticulously via the TN e-Grantz portal.

9. Research Initiatives and Industry Integration

For a mid-tier institution, research aptitude is often built through specialized training rather than patent volume. PITS maintains a unique "Finishing School" that embeds ~60 hours of training per semester into the curriculum.

Finishing School Components:

- Compulsory tutorials: Yoga, Aerobics, Silambam, English singing, and Type-writing.
- Technical Aptitude Training Sessions (TATS).

Auditor's Objective Assessment: While student mini-projects and conferences are regular, the NAAC assessment identifies a "Lack of consultancy and research funding" as a key

institutional weakness. This indicates that while the college is obsessively student-centric for undergraduate training, it is not yet a high-output research hub.

10. Institutional Achievements and Sporting Excellence

Sporting dominance is frequently used as a proxy for institutional discipline. PITS has achieved an exceptional record in Zone XV, winning the Overall Sports Championship 6 times in 8 years.

Specific Distinctions:

- **Archery:** Tamil Nadu State Champions (Men).
- **Snooker:** Tamil Nadu State Champions (Women — Junior, U-20).
- **Roller Hockey:** Girls' team represented the state at the National Level.

These achievements, coupled with the NAAC 'A' Grade and UGC Autonomous status, form a value proposition centered on holistic development and regulatory rigor for the 2026 aspirant.

11. Closing Mandatory Statement

Information sourced from the college's official website, TNEA portal, and government data sources as available at time of preparation. Details may change — verify with official portals and the college website before making admission decisions.
